## OUR VALUES

### U.S. CONSTITUTION

That the Constitution is the Supreme Law of the Land. The rights, principles, and privileges contained therein must be sacred and protected by all elected officials.

### LIMITED GOVERNMENT – HOME RULE

The most effective government is limited government closest to the people. The proper function of government is to do for the people those things that have to be done but cannot be done, or cannot be done as well, by individuals.

### INDIVIDUAL FREEDOM

Good government is based upon the individual and that each person's ability, dignity, freedom, and responsibility comes from God and must be honored and recognized.

### FREE ENTERPRISE

That capitalism and free enterprise, the encouragement of individual initiative and incentive have given this nation an economic system second to none which leads to widespread prosperity and freedom.

### FISCAL RESPONSIBILITY

Sound money management is our objective. Efficiency of government is paramount and alternatives to tax increases should always be sought.

### EQUALITY

Equal rights, equal justice, and equal opportunity for all regardless of race, creed, age, sex, or national origin. Equality of opportunity is an American Value and is distinct from equality of outcome.

# CCCVPAC PRINCIPLES

## Safe, Secure Communities

We advocate for increased funding for police departments, comprehensive training, and community policing initiatives to create safer neighborhoods. We support the Second Amendment rights of law-abiding citizens.

## Education

We are committed to reforming the education system to ensure every family has access to high-quality education, school choice, local control, a curriculum that prepares students for the workforce, emphasizes STEM education, and upholds traditional values.

## Environment

We emphasize the importance of conservation and responsible resource management. We support policies that encourage the use of clean technologies without imposing excessive regulations that hinder economic growth of oil, natural gas, nuclear, and other renewables energies.

## Economy

We support free market capitalism, lower taxes, reduced government regulation, tax cuts for individuals and businesses, deregulation, and promoting entrepreneurship through economic policies. We emphasize trade policies that protect American jobs and industries, ensuring that the U.S. remains competitive in the global market.

## Quality of Life

We advocate for policies that promote individual liberty and personal responsibility, ensuring access to affordable healthcare through market-based solutions, supporting family values, and safeguarding religious freedoms. We also focus on job creation, education, and a robust economy. By prioritizing a limited government approach, we aim to empower individuals and communities to thrive independently.
